Highlights

Safe and gentle
Your Sonicare is safe to use on: braces (brush heads wear out sooner when used on braces), dental restorations (fillings, crowns, veneers) and periodontal pockets.

Patented sonic technology
Sonicare's unique dynamic action gently and effectively reaches deep between teeth and along the gumline.

Smartimer
Two-minute timer automatically tracks brushing time and turns the toothbrush off after two full minutes of brushing is complete.

Angled brush head neck
Uniquely angled brush head neck makes it easier to reach back teeth, removing plaque in those hard-to-reach areas.

Easy-start programme
Gently increases power over the first 14 uses to ease into the Sonicare experience

Quadpacer
30 seconds interval timer indicates when you have completed each quadrant of your mouth and signals for you to move on, resulting in more consistent cleaning throughout your mouth
